

Page

```
classDiagram
    class Page
    class LoginPage["ListenToMe.LoginPage"]
    LoginPage --|> Page
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'Page'. Below it is a box labeled 'ListenToMe.LoginPage'. A blue arrow points from the 'ListenToMe.LoginPage' box up to the 'Page' box, indicating that 'ListenToMe.LoginPage' inherits from 'Page'.

ListenToMe.LoginPage
